

 **EUROJURIS SPORTS & EVENTS TEAM**

## The people

- **Erik Alver**, Advokatfirmaet Alver AS, Lillehammer, Norway (chairman)
- **Joachim Asendorf**, v. Einem & Partner, Bremen, Germany
- **Johannes Beyer**, Einem & Partner, Frankfurt, Germany
- **Thierry Clerc**, IFL Avocats, Rouen, France
- **Valerie Crevecoeur**, IFL Avocats, Rouen, France
- **Klara Dvorakova**, Holubová advokáti, Prague, Czech Republic
- **Barbara Egger-Russe**, Greiter Pegger Kofler & Partner, Innsbruck, Austria
- **Jan Goemans**, Noppen De Vries Goemans Advocaten, Arnhem
- **Olivier Vibert**, IFL Avocats, Paris, France

## The idea

The lawyers of our group have legal skills, experience and understanding of the content in a sport event and other events. We also have the right spirit and attitude needed for being a right collaborator for the organizing committees.

We believe that we can support organizers and add expertise in the different kind of legal issues related to all types of big events. Sport events like Olympic Games, World and Continental Championships, World Cups and similar.

There are definitely a lot of legal issues that have to be taken care of. Briefly we mention some of such issues:

- Immaterial Property (IP) rights
- Land management
- Financial protection and insurance
- Contract work (venues, FNB, transportation, accommodation, sponsors etc.)
- Procurement law and procedures
- General organizational issues

It is our primary goal to offer services as a group supplementary to Organizing Committee's (OC) local legal advisors, but we can also assist you as legal advisors directly linked to the Organizing Committee.

## Salaries

We believe that we can find a reasonable agreement for our salaries, and we want to discuss this issue with each organizer.

## How to proceed

We believe that the best way is that representatives of our group can meet the organizing committee and/or the local lawyers, where we can present ourselves more thoroughly. As sport minded people, we are willing to invest in the future, and we want to discuss with you how we can find the best and most effective use of services from the group and the appurtenant conditions.
